ICING

Prepare run sugar icing in the following colors: light pink, dark pink, light green, dark green, light yellow, yellow, flesh, orange, white, and brown. Prepare royal icing in light pink, dark pink, light green, dark green, yellow, and dark brown.

Baby Face Cookies

Outline and fill the baby face cookies with flesh-color run sugar, leaving the space for the hair and hair band uniced. Allow the flesh color to set completely. Pipe the head band with pink or green run sugar. Allow the band to set completely. Pipe the hair, the ears, and a flower on the band. Then pipe two dots using brown run sugar for the eyes, an oval for the nose using flesh run sugar, and the smile using dark brown royal icing.

Bottle Cookies

Outline and fill the cylinder of the bottle with white run sugar. Allow to set completely. Pipe lines with yellow royal icing. Outline and fill the ring of the nipple with pink or green run sugar. Allow to set completely. Add lines with pink royal icing. Outline and fill the bottle nipple with flesh run sugar.

Bird Cookies

Outline and fill the bird head and body with light pink, light green, or light yellow run sugar. Allow to set completely. Outline and fill the bird's wings using the darker shade of the icing used for the bird. Pipe contrasting colors of dots on the wing using run sugar. Add a beak and the feet with orange run sugar. Pipe a dot of brown run sugar for the eye.

Flower Cookies

Outline and fill the petals of the flowers in pink, yellow, or green run sugar icing. Allow to set completely. Using tip #1, create a plaid design by piping fine lines of contrasting colors of royal icing. Outline and fill the center of the flower with pink, yellow, or green run sugar. Pipe contrasting colors of dots using run sugar.
